ABFSE Educator Organizations

Professional Association Members

State Regulatory Agencies

The ABFSE is recognized by the

U S Department of Education

and the

Council for Higher Education Accreditation

as the accreditor of college and university programs

in Funeral Service and/or Mortuary Science Education in the

United States

The American Board of Funeral Service Education is organized for educational purposes in the interest of the public and of the funeral service profession. Its purpose is to cooperate with all groups and agencies having an interest in the advancement of the principles and standards of funeral service education.

The *Mission of ABFSE* is to advance funeral service education and practice through high standards that prepare students for careers.

ABFSE accredits programs at the associate and bachelor's degree levels. Several Diploma and Certificate programs that require a minimum of sixty (60) credits are also accredited by ABFSE.

Accreditation is for programs and institutions that meet the established accreditation standards. ABFSE accreditation standards meet the expectations of the US Department of Education and CHEA.

Some institutions with accredited programs also offer certificate programs designed to meet the licensing requirements of the state in which the institution operates. Such programs may or may not meet the licensing requirements of other states.

ABFSE accredits programs and institutions. Students may graduate from an accredited program, but individual students are not accredited.

Graduates of ABFSE programs typically take licensing examinations. Those examinations are not administered by ABFSE.

# History

The predecessor of the American Board of Funeral Service Education was established in 1946 as the Joint Committee on Mortuary Education (Joint Committee) by joint resolutions of the National Funeral Directors Association (NFDA), the Conference of Funeral Service Examining Boards of the United States (renamed the International Conference of Funeral Service Examining Boards in 1998 - ICFSEB) and with the concurrence of the associations of schools and colleges offering funeral service education.

The Joint Committee was composed of three (3) representatives appointed by NFDA, three (3) representatives appointed by the Conference (and designated as that association's accreditation committee), and three (3) representatives of the schools and colleges.

As stated in Article II of the original constitution, the Joint Committee "shall make and enforce its rules and regulations governing its procedure and conduct, and [it] shall formulate and promulgate and enforce rules and regulations setting up standards concerning the schools and colleges teaching mortuary science."

Article V of the same constitution stated, "the power to accredit schools and colleges of mortuary science shall be vested in the Conference of Funeral Service Examining Boards of the United States, Inc.," with the further provision that "schools and colleges of mortuary science shall have the right of appeal from decisions of the accreditation committee of the Conference of Funeral Service Examining Boards of the United States, Inc. to the appellate board of the Joint Committee on Mortuary Education. Rules and procedures for the appellate board shall be promulgated by the Joint Committee on Mortuary Education."

In 1959, the name of the Joint Committee on Mortuary Education was changed to the American Board of Funeral Service Education.

In 1962, authority for accreditation of funeral service institutions/programs was transferred from The Conference to the American Board of Funeral Service Education (ABFSE). The ABFSE has continued that function since, serving as the only organized accrediting agency in the United States in the field of funeral service/ mortuary science education.

In keeping with the principle of accreditation by peers, the ABFSE amended its constitution and by-laws in 1970 to provide for the establishment of a Commission on Schools within the framework of a restructured American Board of Funeral Service Education.

As a result thereof, Article VI of the Constitution of the American Board provides that, "the function of the Commission shall be:

1. to prepare for and certify to the American Board criteria and procedures for accreditation;
2. to receive reports of the Standards and Criteria committee and to certify to the American Board those schools that meet such criteria and are to be accredited; and
3. to establish, in cooperation with the American Board, appellate procedures on accreditation certifications of the Commission.

The American Board shall accept the certifications of the Commission and make official statements of accreditation."

In 1978, in reaction and response to recommendations made by the U.S. Office of Education, an ad hoc committee of the American Board of Funeral Service Education was appointed for the purpose of restructuring the Board in accordance with such recommendations. At that time, the Commission on Schools was changed to an autonomous and self-perpetuating standing committee of the Board and renamed the Committee on Accreditation (COA).

The American Board of Funeral Service Education has been recognized by the U.S. Dept. of Education (formerly the U.S. Office of Education) as the sole accrediting agency in funeral service and mortuary science education since 1972 and the American Board was accepted into the Council on Postsecondary Accreditation (COPA) in 1988 as a member of its Assembly of Specialized Accrediting Bodies. In 1993, COPA became the Council on Recognition of Postsecondary Accreditation (CORPA) which continued recognition of the ABFSE. Since 1997, ABFSE has also been recognized by the Council for Higher Education Accreditation (CHEA), which replaced CORPA.

In 2011, the CHEA renewed ABFSE COA status as a recognized accreditor for a ten (10) year period. As part of the continuing recognition process, ABFSE submitted interim reports to CHEA in 2015 and 2018. CHEA policy revision in 2019 changed the maximum recognition period to seven (7) years for future recognition renewals. In March 2022, ABFSE COA again received recognition renewal for the maximum period of seven (7) years.

In 1987, the curriculum of the American Board of Funeral Service Education received a complete review and a new policy was instituted implementing annual reviews to ensure that each course outline would be updated at least every five (5) years. In 1988 and again in 1995, the Manual on Accreditation was extensively rewritten and updated to incorporate many necessary changes in policies as recommended by USDE, CORPA, and ABFSE members. Additional revisions and editorial changes have occurred on an annual basis since then.

In 1995 all Standards of Accreditation were reviewed and updated by the Committee on Accreditation and provisions were instituted for regular future reviews. The most recent review was 2017-2018 and the updated standards to take effect January 1, 2020. The next comprehensive review will occur during 2023-2024.

By 1995, ABFSE membership included forty-two (42) accredited college and university programs in Funeral Service and Mortuary Science Education, with four (4) additional programs in the process of applying for accreditation.

At the April 2002 annual meeting in Dallas, Texas, the members of the American Board of Funeral Service Education approved a new Constitution and By-Laws which, among other revisions, approved an option of ABFSE membership for additional funeral service organizations. The National Funeral Directors and Morticians Association was admitted to full membership in September 2002. In 2009, the International Cemetery, Cremation and Funeral Association (ICCFA) became a member. Cremation Association of North America was approved for membership in 2017. ICCFA withdrew from membership in May 2018.

In June 2008, the National Advisory Committee on Institutional Quality and Integrity (NACIQI) of the U.S. Department of Education recommended that the Secretary of Education grant continued recognition to ABFSE for the full period of five years. In December of 2010, the NACIQI of the U.S. Department of Education began the lengthy process of recognition of the ABFSE. The committee's review was favorable, and recognition was continued.

During 2015, ABFSE completed the re-recognition petition for the US Department of Education and appeared before NACIQI once again. Five (5) year recognition renewal was granted by the US Secretary of Education. In 2020, ABFSE initiated the next five(5) year recognition renewal process and received approval in June 2021.

The Committee on Accreditation (COA) expanded its voting membership when it welcomed a representative from the National Funeral Directors and Morticians Association in April 2005. In 2012, ICCFA and the College and University Council were added to the voting membership of the COA. ICCFA withdrew from membership in May 2018. Voting members of COA now total eleven (11): seven (7) educators, two (2) industry representatives and two (2) public members.

Institutions accredited by ABFSE must offer a program at the associate degree level or higher, or its equivalent (i.e., sixty (60) semester credits of a prescribed curriculum) and meet the required standards of the ABFSE. The Standards and associated policies are available on the ABFSE website (<https://www.abfse.org/docs/standards.pdf>). They may also be accessed and downloaded by clicking on "ABFSE Standards" from the drop-down menu under "Accreditation". Revised standards took effect January 1, 2020.

Interested parties are invited to submit written comments concerning the qualifications for accreditation or candidacy of any listed program. Comments received will be considered by the Committee on Accreditation as part of its regular program review.

## Membership

The membership of ABFSE today consists of the funeral service education programs and colleges and professional organizations. The membership includes the following:

Fifty-eight (58) accredited programs and institutions (as of April 2023)  
National Funeral Directors Association  
National Funeral Directors and Morticians Association  
Cremation Association of North America

### Funeral Service Institutions

Data for 2022 was collected from fifty-eight (58) accredited programs or institutions; forty-six (46) programs offered in public multi-purpose institutions and twelve (12) programs in private institutions. Ten (10) programs are provided by single purpose colleges specializing only in funeral service. The fifty-eight (58) institutions offered a total of fifty-three (53) associate degrees, seven (7) baccalaureate degrees and five (5) certificates and/or diplomas. Fifty-one (51) of the accredited programs offer some Distance Education and forty-six percent (46%) of graduates completed more than half of their courses via the distance modality. Forty-three percent (43%) of the accredited programs offer an option to complete funeral service education on a part-time basis. Six (6) institutions offer an option for Bachelor degree completion in a funeral service related field after completion of the accredited associate degree.

### Funeral Service Students

Over the past few generations, there have been significant changes in the profiles of both the institutions offering funeral service education and the students studying to become funeral directors/embalmers.

Three (3) generations ago, funeral service education was offered almost exclusively by private institutions and virtually 100% of the students were male and, for the most part, sons of funeral homeowners. Over ninety percent (90%) of the students were white. Most programs offered a one-year (or less) diploma or a certificate.

In 2022 there were 7,034 students enrolled in funeral service education. Approximately 3,462 new students entered the accredited programs operating in thirty-three (33) states and the District of Columbia. This represents a two percent (2%) increase in total enrollment when compared to 2021.

Today's graduates are seventy-two percent (72%) female. White students make up approximately sixty-nine percent (69%) of total graduates while African American students constitute about seventeen percent (17%). Approximately eleven percent (11%) are Hispanic Americans, Native Americans, and Asian Americans. About 3% identify as from other backgrounds. Approximately thirteen percent (13%) of graduates are related to someone in funeral service and about seven & one-half percent (7.5%) report the relative to be a parent.

Average student age is not identified in ABFSE statistics. However, in 2022, forty-three percent (43%) of new enrollees were age twenty-five (25) or less and forty-three percent (43%) were ages 26-40. Thirty and one-half percent (30.5%) of new students entered funeral service education with a high school education and nineteen percent (19%) had a Bachelor degree, Master's degree or

higher upon matriculation. Thirty-one percent (31%) entered funeral service education with an associate degree or higher (but not a BA/BS).

## **The Future**

The American Board of Funeral Service Education has experienced substantial change in the past decade. As the funeral service profession continues to evolve, new approaches will be reflected in the education of future students and ABFSE programs and institutions will continue to provide high quality education to students desiring to enter this important and respected profession.

Funeral Service education and accreditation activity was not immune to the Covid-19 pandemic. Educators in all aspects of academic life were forced to pivot to virtual delivery. In 2022, face-to-face instruction and accreditation site visits resumed.

However, a growing number of institutions are seeking approval to deliver their accredited funeral service program(s) via distance education on a permanent basis.

## Directory Information

The Directory on the following pages includes contact information, accreditation decision summaries and some outcomes data including NBE results for each program. The National Board Examination (NBE) is the licensing standard in most states. The test is administered in two parts – Arts and Sciences. The following explanations also apply:

- Total enrolled = all students currently enrolled in the funeral service/mortuary science program as reported by the program/institution.
- # of new students & # of grads indicates the number in the designated calendar year.
- Timely Grad = Timely graduation, defined as the number of graduates completing the program in 1½ times designated program length.
- Graduation Rate = represents the cohort graduation rate (% of students from original cohort completing in the designated year)
- Did not finish = left before completing the program.
- Employment data is based upon graduate responses. ‘No response’ falls in the not employed category. Employment is counted within 6 months of graduation.
- Overall % employed includes employment in any field, (not just funeral service) and continuing education.
- Employed in funeral service means employed in a funeral service related field within 6 months of graduation (or continuing education).

For additional information see Standard 10 or contact the ABFSE Office.

#### Accreditation

Program Accredited by ABFSE: Associate of Applied Science - Mortuary Science

Initial Accreditation 1997/Last comprehensive review 2021/Next comprehensive review Spring 2028

Re-accreditation: October 2021 for period of seven (7) years. (virtual)

Most recent Accreditation decisions: October 2016 recognized institutional name change from Mesa Community College to Chandler-Gilbert Community College via Substantive Change process.

-October 2021 - Re-accredited with stipulation to address assessment (Standard 10) including evidence that assessment data is being used for program improvement. Evidence is to include results of current graduate and employer surveys and advisory board meetings.

Program was recognized for a candid comprehensive review during the self study process which led to program improvements and for the dedication of the program director.

(In-person virtual visit follow-up required)

-April 2022 – Receipt of assessment plan is acknowledged with the recommendation to utilize the Advisory Board and provide Advisory Board minutes with the next ABFSE Annual Report.

In person site visit is required as follow-up to 2021 virtual visit.

-March 2023 – Satisfactory completion of in-person follow-up visit.

School pass rate is based on 1<sup>st</sup> time test takers within one year of graduation.

### **Accreditation**

Program Accredited by ABFSE: Associate of Science - Funeral Service Education

Initial Accreditation 2002/Last comprehensive review 2021/Next comprehensive review 2028.

Re-accreditation: April 2015 for seven (7) years with Focus Visit to review compliance with Standard 6 (recordkeeping) and Standard 11 (aims and objectives assessment).

Most Recent Accreditation decisions: October 2018 – approved Focus Visit report confirming Standard 6 and Standard 11 compliance.

-April 2022 – ‘Probation’ status; current accreditation continued while probation concerns are addressed.

Probation status requires the following issues to be addressed by March 1, 2023:

- Provide evidence that program records are effectively maintained including appropriate institutional oversight policies to ensure maintenance and continuity in the event of personnel changes.
- Ensure consistent documentation and record-keeping for mandatory evaluation of student competencies in embalming and funeral directing.
- Update agreements for use of off-campus instructional sites.
- Provide evidence that a documented assessment plan is in place to measure program effectiveness and to implement necessary improvements.

- Provide evidence that all deficiencies cited in the prior comprehensive review and site visit have been addressed.

In addition, the program must assure that the program website and publicly distributed materials have a uniform message including the proper accreditation statement.

-December 2022 – Completed in person site visit as follow-up to December 2021 virtual visit.

-April 2023 - Probation status resolved. Returned to 'Good Standing'. Focus visit will be scheduled when the program completes the anticipated move into new facilities.

### Accreditation

Program and Institution Accredited by ABFSE: Associate of Applied Science and Bachelor of Science – Funeral Service

Initial Accreditation 1981/Last comprehensive review 2023/Next comprehensive review *tbd*

Re-accreditation: October 2016 for period of seven (7) years with approval of new Bachelor of Science degree in Funeral Service Management to include disclosure statement “not regionally accredited.”

Most recent Accreditation decisions: October 2023 - Program placed on Probation. See details below.

-April 2018 - Approved distance education for delivery of the accredited AAS degree program with Focus Visit. Focus Visit review by COA in October 2020.

-April 2020 - Program placed on probation for failure to meet Standard 10.4 – three-year average NBE pass rate less than 60%.

Administrative Probationary Accreditation for failure to submit a timely and accurate Annual Report.

-October 2020 – Probationary Accreditation status removed.

-Focus Visit follow-up requires a completed assessment plan due February 2021.

-April 2021 - COA acknowledges receipt of the distance education assessment plan. Next assessment plan update, due February 15, 2022, must demonstrate how the assessment data is used for program improvement.

-April 2022 – Assessment plan accepted.

-October 2023 - The institution and accredited programs are on Probation status for one year during which issues regarding accreditation standards 1,3,5,6,9,10 are to be addressed.

Standard 1 – Provide evidence of a current and viable Advisory Board.

Standard 3 – Published materials must accurately reflect the states where the AAS and BSFS degrees meet licensure requirements.

-Demonstrate compliant transcript language for non-accredited programs.

- Provide evidence that students are aware that courses may change from on-ground to distance delivery.

Standard 5 – Update syllabi to accurately portray the college catalog and ABFSE B-6 curriculum distribution.

- Provide inspection documentation for off-campus instructional sites.
- Provide evidence of embalming competency certification by qualified faculty members and completion of funeral directing tasks.
- Provide evidence of assessment data and analysis demonstrating equivalent academic rigor for online and face-to-face courses.
- Submit an organized curriculum plan for the Bachelor degree offerings.

Standard 6 – Provide evidence of student-teacher ratios compliant with the standard.

Standard 9 - Demonstrate that pertinent students policies are provided before starting coursework.

Standard 10 – Demonstrate that data collection and analysis is used for continuous program improvement.

### Accreditation

Program and Institution Accredited by ABFSE: Associate in Applied Science - Funeral Service

Initial Accreditation 1997/Last comprehensive review 2019/Next comprehensive review 2025

Re-accreditation: October 2019 for period of seven (7) years from previous review in 2018

Most recent Accreditation decisions: October 2019 for period of seven (7) years with no stipulations.

Important factors in the decision were the rapid response to suggestions of the site visit team, consistent student success on the national licensing examination, upgraded facilities since the last ABFSE visit and the opportunities for communication between all constituencies of the institution.

-April 2022 – Substantive Change application to add Distance Education is received. Site visit will be scheduled.

-May 2022 – completed site visit to confirm change in ownership structure.

-October 2022 – Approved to offer the accredited program via Distance Education.

### **Accreditation**

Program Accredited by ABFSE: Associate in Applied Science - Funeral Service Technology

Initial Accreditation 1975/Last comprehensive review 2023/Next comprehensive review 2030

Re-accreditation: October 2023 for period of 7 years with progress report due February 15, 2024 (see below)

Most recent Accreditation decisions:

- April 2013 accreditation extended to October 2020. Probation continued to April 2021. Final decision delayed due to COVID-19 pandemic.
- May 2020 – program placed on Probation following comprehensive review subject to evaluation of a compliance report (due September 1, 2020) to demonstrate implementation of an effective assessment plan.
- October 2020 –additional assessment data required by February 2021.
- April 2021 – Program returned to good standing (Probation concerns satisfied). Program will submit an updated assessment plan.
- April 2022 – COA reviewed an updated assessment plan submitted February 2022. The plan appears to be lacking attention to Standard 10.1.1a. An updated plan is due for COA review by September 1, 2022.

- October 2022 – Updated assessment plan accepted by COA.  
Administrative Probationary Accreditation for failure to pay accreditation renewal fees.
- February 2023 – Administrative Probation resolved. Program in ‘Good Standing.’
- October 2023 – Reaccreditation for seven (7) years with a progress report to verify that course descriptions for all courses are uniform across all sources of information; provide an updated document retention policy for Funeral Service Technology; verify that the *new* curriculum has been implemented.

### **Accreditation**

Program Accredited by ABFSE: Associate in Applied Science - Funeral Service

Initial Accreditation 2015/Last comprehensive review 2018/Next comprehensive review 2025

Re-accreditation: April 2019 accreditation continued for one year while program works to come into compliance with Standard 11.4.1 (consecutive 3-year periods with average pass rate on the national licensing examination less than 60%)

Most recent Accreditation decisions: April 2019 – Program moves from ‘Probation’ to ‘Show Cause’ status for failure to comply with Standard 11.4.1 (must ‘Show Cause’ why accreditation should not be removed by improving the 3-year average pass rate on the national licensing exam to 60%)

-April 2020 – program returned to good standing after demonstrating improved 3-year average pass rate on the national licensing exam.

-April 2022 – new Program Director named.

## Mercer County Community College-Funeral Service Curriculum

1200 Old Trenton Road

West Windsor, NJ 08550

Geralda Aldajuste, Program Director

### **Accreditation**

Funeral Service Program and Institution Accredited by ABFSE: Associate in Occupational Studies – Funeral Service

Initial Accreditation 1946/Last comprehensive review 2020 (postponed due to Covid-19 pandemic)/Next comprehensive review 2025

Re-accreditation: April 2023 for period of three (3) years with stipulation to provide updated assessment plan and curriculum distribution.

Most recent Accreditation decisions: April 2021 - current program and institutional accreditation continued on Probation. Probation status to be addressed by March 1, 2022 with requirements to verify accuracy of 2020 Annual Report data and verify compliance with accreditation standards that took effect January 1, 2020 (Standards 1,2,3,6,10).

-April 2022 – Probation status extended for one year (until April 2023) based on significant efforts to address original probation concerns. At that time, a clearly articulated & integrated assessment plan must be presented. Such a plan will demonstrate a mechanism for collecting, assessing, & applying data in order for assessment efforts to lead to continuous program improvement. (In-person follow-up to October 2020 virtual site visit is required)

-October 2022 –In-person follow-up visit completed.

-April 2023 – Probation status resolved. Return to ‘Good Standing.’

### Accreditation

Program Accredited by ABFSE: Associate in Applied Science - Mortuary Science

Initial Accreditation 1947/Last comprehensive review 2023/Next comprehensive review 2030

Re-accreditation: October 2023 for period of seven (7) years with no stipulations.

Most recent Accreditation decision:

-October 2016 for period of seven (7) years

-April 2017 received updated college catalog to verify proper accreditation statement.

-October 2023 – re-accredited for period of seven (7) years; no stipulations. Progress report due March 1, 2024 to document evidence of faculty training for the new learning management system. Important factors in the re-accreditation decision were evidence of interdisciplinary cooperation and the dedicated space for teaching funeral practices and embalming/restorative arts labs.

9	CANA	Cremation Association of North America representative info@cremationassociation.org	

The Constitution and Bylaws Committee is responsible for periodically reviewing the Constitution and Bylaws and responding to requests for review from the Executive Committee.

## College and University Council

	Name	Term Expires
Chair	Jolena Grande Cypress College 9200 Valley View Street Cypress, CA 90630 (714) 484-7278 jgrande@cypresscollege.edu	2025
Secretary	Jonathon Acosta Worsham College 495 Northgate Parkway Wheeling, IL 60090 (847) 808-8444 jacosta@worsham.edu	2025

The College and University Council serves as the "caucus" for all academic programs/institutions which are members of the ABFSE; reviews and recommends action on notices of motion; and establishes a Nominating Committee to present a slate of names to the membership at the Annual Meeting for each officer position that is available.
